SUBJECT: NRC INSPECTION REPORT NO. 70-1201/2009-001

Dear Mr. Grandemange:

This refers to the inspection conducted from April 20-30, 2009, at the AREVA NP - Lynchburg facility. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. On April 23 and 30, 2009, the inspectors discussed the findings with members of your staff.

As a result of the inspection, the enclosed NRC Form 591FF, Safety Inspection Report, Parts 1 and 3, are being issued. The enclosed form indicates that no violations were identified during the inspection of your licensed activities. However, one unresolved item was identified regarding our review of your proposed revision to an accident scenario analysis to be consistent with the methodology described in your Integrated Safety Analysis Summary. Please retain the original form for your files.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure, will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
