RTI Project File 0600004.000

Per our discussions, and with your concurrence, RTI will be providing the following information requested by the U.S. Nuclear Regulatory Commission (NRC) in their May 1, 2009 Information Collection Plan pertaining to our work on the GLE Environmental Report (ER), Rev. 0, December 2008. RTI will provide CDs/DVDs of the requested information to GLE and the NRC, or their contractor Argonne, during the GLE Site Visit in Wilmington; May 18 to 20, 2009. The information we will transmit electronically during the appropriate technical sessions includes:

1. ER Modeling files

- a. GENII input and output files
- b. RADTRAN and TRAGIS input and output files
- c. XOQDOQ input and output files
- d. Cadna/A (noise model input sources)
- e. AERMOD and AERMET input and output files
- f. MODFLOW_MT3D with subfolders \Baseline, \Proposed_Action, and \Cumulative_Impacts

5/19/09

2. Technical Reports

- a. 2006-2007 *Report of Organic Compounds in Groundwater*, December 2008, RTI Project No. 0600002.000.003)
- b. *Northwest Site Area 2006-2007 Monitoring Report*, December 2008, RTI Project No. 0600002.000.005

In addition, we have two jump drives that Andrew and I will use, if necessary, to provide selected cited references from the ER to the NRC/Argonne, if requested. We will also have file copies of other RTI documents that already are in the public record for NRC/Argonne to review, should that be requested.
