Subject: Levy Teleconference Summary - Week of January 6, 2009
Attachments: Teleconference Summary 010609-Final.doc

Paul,

Attached is a summary of this week's teleconference regarding the Levy COLA. Anything requiring clarification can be addressed during the next teleconference, or if you have any immediate concerns please give me a call.

Sincerely,

Doug Bruner

**Teleconference Summary with PEF
Levy County COL
January 6, 2009, 1:00 PM EST**

Discussion Topic

Introductions

Information needs clarified during site audit held December 2 through 5, 2008

Status

- PEF submitted input/output files (Calculation Native Files). NRC has provided these files to PNNL
 - PEF submitted GIS Data Files. NRC has provided these files to PNNL
 - PEF is in the process of preparing responses to information needs, which will include documents that have been requested. Responses are expected to be submitted to NRC next week
- SHPO
- PEF copies of all letters to/from SHPO, that included consultation and coordination, will be provided with responses to information needs
 - PEF preference is to keep privileged or sensitive information from SHPO as confidential. Suggestion was made by NRC staff for PEF to submit sensitive information to the NRC and the NRC would docket as non-public; however, it has been decided that NRC staff will seek this information directly from SHPO (see Information Need CR-14). Information that was not sensitive has already been provided to the NRC by PEF through GIS data files
 - PEF will send the PEF Guidance Document and the SHPO's concurrence on the Inadvertent Finds Procedure to the NRC in response to an information need
 - The PEF policy document on Cultural Resources has not been sent to SHPO. Suggestion was made by NRC staff for PEF to obtain SHPO concurrence on this document to strengthen their positions
- Reading Room – Accessibility of PEF documents
- Reading rooms in Richland and Chantilly are stocked
 - The reading rooms contain a list of the documents stocked in the respective reading room
 - HP/RC documents requested during the site audit have been sent to the CH2M Hill office in Parsippany, New Jersey
 - Transportation documents have been sent to the CH2M Hill office in Columbus, Ohio
- Preparation
- LWA vs. COL impacts – PEF has revised text and tables in Section 4.6 and Section 4.8, which will be provided by PEF next week with the responses to information needs
 - EIS Scoping Summary Report will describe site audit activities conducted by the staff and is expected to be publicly available by May 28, 2009. this report includes:
 - Participants, itinerary, and trip report
 - One to three pages discussing audit activities for each technical area

- RAI Responses from PEF

February 25 - March 27

Participants on Teleconference (January 6, 2008)
