Director Office of Federal and State Materials
and Environmental Management Programs
Mail Stop T8-E24
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Ms. McIntosh,

I am sending you this attestation letter on behalf of the Virtua Health and Rehabilitation Center at Mt. Holly, located at 62 Richmond Avenue in Lumberton, New Jersey. This facility is in compliance with the Atomic Energy Act of 1954. We currently do not have any tritium exit signs installed in the facility. The current exit signs were the original signs installed and they are not tritium containing exit signs. Jeff Chesney, Director of Environmental Services is responsible to ensure day to day compliance with these requirements. Mr. Chesney can be reached at ~~(609) 267-1000~~, extension 44809. In order to prevent the potential of loss of the tritium; we will not purchase tritium containing exit signs.

Respectfully,

A handwritten signature in black ink that reads 'Paul M. Sarnese'.

Paul M. Sarnese, C.P.P., C.H.P.A., H.E.M., C.P.M
