Environmental Projects Branch 2
Division of Site and Environmental Reviews
Office of New Reactors

FROM: Stephen Lemont, Environmental Project Manager **/RA/**
Environmental Projects Branch 2
Division of Site and Environmental Reviews
Office of New Reactors

SUBJECT: SCOPING SUMMARY REPORT RELATED TO THE
ENVIRONMENTAL SCOPING PROCESS FOR THE FERMI NUCLEAR
POWER PLANT, UNIT 3 COMBINED LICENSE APPLICATION

The U.S. Nuclear Regulatory Commission (NRC) staff is preparing an Environmental Impact Statement (EIS) in association with its review of the combined license application submitted by Detroit Edison Company for construction and operation of the Fermi Nuclear Power Plant, Unit 3, in Monroe, Michigan. As the first phase of EIS preparation, NRC conducted a scoping process to provide an opportunity for public participation to identify important issues to be addressed in the EIS. The scoping process was conducted from December 10, 2008, to February 7, 2009, during which Detroit Edison; Federal, Tribal, State and local government agencies; local organizations; and individuals were invited to participate by providing oral comments at two public meetings on January 14, 2009, and/or by submitting comments in writing.

The NRC staff has prepared the enclosed Scoping Summary Report which identifies the comments received either at the public scoping meeting, by letter, or by electronic mail and provides responses to those comments. In accordance with 10 CFR 51.29(b), all participants in the scoping process (who have provided mailing information) will be provided with a copy of the Scoping Summary Report. The transcripts of the scoping meetings are publicly available in ADAMS under accession number ML090550991.

The next step in the environmental review process is the issuance of a draft EIS. Notice of the availability of the draft EIS and the procedures for providing comments will be published in an upcoming *Federal Register* notice.
