American Board of Radiology  
5441 E. Williams Boulevard  
Suite 200  
Tucson, Arizona 85711-4493

ATTN: Gary Becker, M.D.

SUBJECT: FULL MEMBERSHIP ON THE ADVISORY COMMITTEE ON THE MEDICAL USES  
OF ISOTOPES FOR A DIAGNOSTIC RADIOLOGIST

Dear Dr. Becker:

I am writing in response to your letter dated May 22, 2009, requesting that a Diagnostic Radiologist be added as a full member of the Advisory Committee on the Medical Uses of Isotopes (ACMUI).

First, I would like to thank the American Board of Radiology for their involvement in arranging for Dr. Mickey Guiberteau to support the ACMUI and represent the diagnostic radiology perspective at the ACMUI meetings over the last year. The U.S. Nuclear Regulatory Commission (NRC) staff agrees that he has provided valuable insights to the ACMUI deliberations.

Consistent with your request, I plan to pursue expanding the composition of the ACMUI membership to include a diagnostic radiologist position. In accordance with the ACMUI Bylaws, the Commission determines the size and composition of the ACMUI. Revisions to the ACMUI composition require Commission approval; therefore, NRC staff will prepare a Commission paper. We expect the paper to be submitted to the Commission this summer. If the Commission votes to increase the ACMUI's size by adding a position, the position would be posted and filled through open competition. We will keep you informed of the status, and we hope that Dr. Guiberteau can continue his support in the interim.

For further information or for questions, please contact Ms. Cindy Flannery of my staff at (301) 415-0223 or via e-mail at [cindy.flannery@nrc.gov](mailto:cindy.flannery@nrc.gov).

Sincerely,
