I. Introduction

The renewed license authorizes operation of the Oconee ISFSI in accordance with the provisions of the renewed license and its Technical Specifications. The renewed license expires on January 31, 2050.

II. Background

By application dated January 30, 2008, as supplemented January 30, 2009, Duke requested renewal of its operating license for the Oconee ISFSI. Duke requested the renewal of the original ISFSI license for a renewal period of 20 years, and an exemption for an additional 20 years.

III. Finding

The application for the renewed license complies with the standards and requirements of the Atomic Energy Act of 1954 (the Act), as amended, and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the license. In addition, in accordance with 10 CFR 72.7, the Commission has determined that the exemption is authorized by law and will not endanger life or property or the common defense and security and is otherwise in the public interest.
