Dr. Ron Zelac
Senior Health Physicist
Materials Safety and Inspection Branch (MS T8E24)
U. S. Nuclear Regulatory Commission
Washington DC
U.S.A. 20555 - 0001

Dear Dr. Zelac

Thank you for your MEMORANDUM dated Dec 18, 2008 concerning the Canadian College of Physicists in Medicine (CCPM) Application for NRC Recognition of its Certification Process for Medical Physicists

The response of the CCPM to the two points mentioned in the memorandum is as follows:

- 1 The CCPM is in agreement with your recommendation that diplomats from 2009 onward be listed on the NRC's public website as noted in the memorandum. Therefore please proceed with the web posting of the sample certificate sent to you in the Nov. 7, 2008 supplement.
- 2 For diplomats who met the revised and current requirements prior to 2009 the NRC has requested that the Board consider providing a sample letter for web posting so stating. The Board will consider this request at the next scheduled telephone conference in 2009 and reply to this request by the NRC.

Let me again thank you for your help and guidance through this application process.

Yours sincerely

Michael Evans, M. Sc., FCCPM
Chief Examiner, CCPM
