Subject: Re: CALVERT CLIFFS HYDROLOGY SAFETY AUDIT

Dear Henry,

Unfortunately, I will be on leave from 16 June through 3 July. I'm available for the rest of July though. If the safety audit is scheduled for the week of 23 June, we can probably get someone from our Woods Hole office to attend. Just let us know what works best for you.

We haven't received a Task Order for this site yet nor looked at the FSAR. I imagine the scope and budget for this site will be similar to the South Texas Project? I'll pull the FSAR from the web site and distribute it to our team. Let us know if any other information becomes available.

Best wishes...Eric

Nebiyu, Jill, Gene & Eric:

Please check your schedules for the week of 23 June and the month of July for potential safety audit dates and let me know as soon as possible. In the meantime, please prepare "information need" statements for your FSAR sections. I will consolidate your statements and forward them to the John Rycyna (Safety PM) for OGC approval.

I will be on leave 28 June to 13 July. Thus, the week of 23 June would be great if your schedules permit.

Henry
