SUBJECT: MEETING SUMMARY FOR THE INFORMATION SESSION AND TOWN HALL
PUBLIC MEETING ON MAY 28, 2009, FOR DIABLO CANYON POWER PLANT

Dear Mr. Conway:

This refers to the information session and public meeting conducted at the Embassy Suites Hotel in San Luis Obispo, California, on May 28, 2009. During these events, the NRC's annual performance assessment of Diablo Canyon was discussed and members of the public presented questions and comments to an NRC panel led by representatives from Region IV's Divisions of Reactor Projects and Nuclear Materials Safety. Additionally, NRC personnel from the Offices of Nuclear Reactor Regulation, Research, Nuclear Security and Incident Response, Congressional Affairs, and Public Affairs were on the panel. The meeting attendance list and the slideshow presentation are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter, its enclosures, and your response (if any) will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Should you have any questions concerning this matter, we will be pleased to discuss them with you.

Sincerely,

/RA/

Vincent G. Gaddy, Chief
Project Branch B
Division of Reactor Projects

Diablo Canyon Public Meeting
CY2008 Reactor Oversight Program

May 28, 2009

NRC Goals

Safety: ensure adequate protection of public health and safety and the environment

Security: ensure adequate protection in the secure use and management of radioactive materials

Diablo Canyon Annual Assessment Summary

January 1 – December 31, 2008

At Diablo Canyon last year, Pacific Gas and Electric met the very high standards the NRC sets for safety and security.

Inspection findings

- Green: very low safety issue
- White: low to moderate safety issue
- Yellow: substantial safety issue
- Red: high safety issue

All 2008 findings at D.C. were green.

Inspection Examples

2500 hours of direct inspections last year.

Equipment alignment	~80 hrs/yr
Triennial fire protection	~250 hrs/3 yrs
Operator response	~125 hrs/yr
Emergency preparedness	~80 hrs/yr
Rad. controls	~110 hrs/2 yrs
Worker radiation protection	~95 hrs/yr
Corrective action program	~250 hrs/2 yrs
Corrective action case reviews	~60 hrs/yr

In addition, resident inspectors make four quarterly inspections per year, and walk through the plant every day.

NRC Plans For 2009

- Conduct the same level of aggressive inspections at Diablo Canyon.
- Steam generator/reactor vessel head replacement.
- Conduct extensive inspection of the fire protection program.
- Conduct additional inspections while the plant is out of service for refueling.
- Independent Spent Fuel Storage Installation inspections.
- Several specialized inspections by teams per year.
- Four detailed Resident Inspector examinations per year.
- Additional inspections from regional inspectors.

Yesterday, Today and Tomorrow

- Diablo Canyon was operated safely last year.
- We will be watching closely, giving the plant the same detailed attention as last year.
- Should we see something we consider significant, you can be assured we will devote considerable attention and resources to ensuring your safety.
