Mr. Palotay,

Ms. Jones has left Qynergy and I have taken over her role as NRC liaison. My contact information is listed below in the signature block.

To answer your question, we do not intend any demonstrations at our facility. We plan to fabricate devices and sell them to customers for demonstration at their licensed facilities.

Thank you,

Chris Eiting

Subject: KRT-2000

Ms. Jones,

I am finishing up the certificate for the KRT-2000. I have a question.

In the application, the conditions of use state that "This model will be tested within licensed facilities only, and will not be fielded."

Does this mean that the device is intended to be demonstrated only at Qynergy facilities, by Qynergy personnel? Or do you intend to take the device off site for demonstrations at a potential customer's facility who is licensed to possess the material?

Sincerely,

Joshua Palotay
