Subject: proposal to set requirements for security checks

Rulemakings and Adjudications Staff:

Regarding the proposal to set requirements for security checks on staff at research reactors, I have no issues with the proposal.

The Missouri University of Science and Technology Reactor Facility is a small 200 kW reactor with a staff of four fulltime personnel. We have gone through the security background checks for safeguard information and will not be affected by the new proposal.

Sincerely,
William Bonzer
Reactor Manager
