James Hazel, M.D.  
Radiation Safety Officer  
Kennett HMA, Inc.  
d/b/a Twin Rivers Regional Medical Center  
1301 First Street  
Kennett, MO 63857

Dear Dr. Hazel:

This refers to your letter dated March 18, 2009, and to our telephone conversation on June 4, 2009, with Mr. Daryl Wyatt. During the telephone conversation, we discussed voiding your request at this time to allow you time to gather additional information for your amendment request. We will void your request without prejudice to resubmission. Please submit the information as requested in the enclosed, "Request for Additional Information".

When you resubmit your request please state that the resubmission is additional information to **Voided Control 318064**. We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

Also note, Mr. Wyatt confirmed that NARM is being used only at the address stated above and in the rooms previously referenced in your license documents. Since the medical use of unsealed NARM is now covered under 10 CFR 35.200 and the medical use of sealed NARM calibration/reference sources is authorized under 10 CFR 35.65, you are currently in compliance with NRC requirements.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

  
William P. Reichhold  
Materials Licensing Branch
