Subject: areva

I just wanted to comment on the new areva facility. I think it is great that Idaho Falls is getting this opportunity. I wish the public understood the potential hazards of this project. I think they are very very small. I currently work at the inl facility and understand nuclear power as well as enrichment. I think it is much safer than many other power sources. I hope this brings jobs and hope to Idaho Falls

Lauren found her dream laptop. [Find the PC that's right for you.](#)
