South Texas Project
Units 3 and 4
Docket Nos. 52-012 and 52-013
Submittal of Meeting Presentation Materials

On May 20, 2009 STPNOC met with the NRC staff to discuss Field Programmable Gate Array (FPGA)-based instrumentation and control (I&C) systems. The FPGA-based technology to be used in certain STP 3 and 4 I&C systems is the confidential commercial property of Toshiba Corporation. This letter provides a public version and a proprietary version of the presentation materials from the meeting.

Attachment 1 provides the slides (proprietary) STPNOC used for the FPGA presentation. Attachment 2 provides the same slides with the proprietary information redacted (non-proprietary). Attachment 3 provides an affidavit and notarization from Toshiba Corporation. The affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission and addresses with specificity the considerations in 10 CFR 2.390 of the Commission's regulations. Accordingly, it is respectfully requested that the information which is proprietary to Toshiba Corporation be withheld from public disclosure in accordance with 10 CFR 2.390.

There are no commitments in this letter.

If you have any questions regarding these responses, please contact me at (361) 972-7136, or Bill Mookhoek at (361) 972-7274.
