License No. 06-19637-02; University of Hartford

To Whom It May Concern

The University of Hartford does not intend to renew its radioisotope license which is set to expire on June 30, 2009. Since moving to its new location (Room 156 Biology Chemistry Building; see information regarding May 10, 2005 license amendment) on May 31, 2005 there has been no purchase or use of licensed materials. As a result there is in fact no licensed material or waste anywhere on the premises and we respectfully request permission to simply decommission Room 156 as a radioisotope laboratory and open it up for regular usage.

Thank you for your consideration and assistance with this matter.

Sincerely,

Jacob P. Harney, Ph.D.
Associate Professor and Chair
Department of Biology
Radiation Safety Officer
University of Hartford
