License No.: 19-09760-02
Docket No: 03031714
Control No: 143233

Dear Mr. Jacobus,

This is in reference to your letter dated January 22, 2009 requesting for termination to Nuclear Regulatory Commission License No. 19-09760-02. In order to continue our review, we need the following additional information:

1) Prior to the transfer of licensed activities performed in the TRIAD Building to another licensee, 10 CFR 30.35(g), 30.36(k)(4) require that you transfer certain records to a successor licensee to ensure their long-term availability. Confirm that you have transferred, or will transfer, the following records; if records are not applicable, explain why.

- a. for unsealed materials with half-lives greater than 120 days, records for disposal made pursuant to 10 CFR 20.2002 (alternate disposal procedures, including burial authorized prior to January 28, 1981), 20.2003 (disposals to the sanitary sewerage system), 20.2004 (incineration of wastes), 20.2005 (disposal of specific wastes including liquid scintillation cocktail and animal tissue), and 20.2103(b)(4), evaluations of effluent releases.
- b. records important for decommissioning as described in 30.35(g), 40.36(f) and 70.25(g). Examples of such records include but are not limited to: records of contamination, identifying the radionuclides, quantities and concentrations; as-built drawings and modifications of structures and equipment in restricted areas and locations of inaccessible contamination such as buried pipes; a single list, updated at least every 2 years, of areas to which access is limited for the purpose of radiation protection (restricted areas); and records related to the provision of financial assurance.

2) Prior to termination of a license, 10 CFR 30.35(g), 30.36(k)(4) and 30.51 require that you submit to the NRC certain records. Please submit the 20.2005 (disposal of specific wastes including liquid scintillation cocktail and animal tissue) records, or explain why such records are not applicable.

3) In support of an environmental assessment related to the release of your facility:

- a) Provide the size of the area to be released in square feet for each building.
- c) Describe the type of buildings use such as "general office and laboratory"

d) Describe the surrounding area, such as “residential”, “industrial”, “commercial”, “mixed residential/commercial”, etc.

e) Describe the general type of activities authorized on the license, such as “laboratory procedures typically performed on bench tops and in hoods.”

f) State when you ceased licensed activities.

We will continue our review upon receipt of this information. Please reply to my attention at the Region 1 Office and refer to Mail Control No. 143233. If you have technical questions regarding this letter, please call me at (610) 337-5366.

Please note that you may not reply to this letter by return e-mail. Your reply must be in writing by letter or facsimile (610-337-5269). If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application.

Sincerely,

Dennis Lawyer
Health Physicist
NRC Region 1, DNMS
