 (NOTE: This will be used as the Documents Title in ADAMS)

Summary: NRC requested licensee state that the non-routine operations stated as source removal does not involve the removal of the source from the gauge and inserting a new source. Licensee stated that the non-routine operations involve removal of the gauge with the source secured in it and shutter locked out and placing the gauge in storage or relocation of the gauge. NRC asked that the procedure for removal state that the radiation survey be performed prior to removal of gauge from its location. Licensee agreed to fax in a updated procedure addressing NRC's concerns.

Action Required: Await amended procedure for non-routine operations.
