SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 27-29280-01

The NRC has received your NRC Form 314 dated January 26, 2009, requesting termination of your NRC license. The NRC Form 314 stated that all radioactive material had been transferred to your State of Nevada radioactive materials license, which we have documented in our records as being License No. 00-11-0180-01. Since your license was authorized for temporary jobsites only, and you stated that no leaking sources have ever been identified, then your license is authorized for termination and no further actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 01 to License No. 27-29280-01, authorizing your license termination. An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have questions or require clarification on any of the information stated above, please contact me at 817-276-6552.

Sincerely,

A handwritten signature in cursive script that reads "Rachel S. Browder".
