RE: License Amendment 41-25501-01

Dear Sir or Madam:

03035281

I would like to request an amendment to Radioactive Material License No. 41-25501-01 to authorize Southern Consulting, LLC to use the CPN MC-3 Portaprobe nuclear moisture/density gauge for measurement of soils and construction materials. The Model CPN-131 (SN M370303625) is being purchased from CPN-Instrotek (Concorde California 925 363-9770), and contains the following sealed sources:

1. Cs-137 (SN 3474GQ)
Maximum activity: 10 mCi
2. Am-241:Be (SN 6225NK)
Maximum activity: 50 mCi

Currently Southern Consulting is in ownership and operation of three Humboldt gauges, one Campbell Pacific gauge, and one InstroTek gauge. With the additional CPN gauge Southern Consulting will have a total of six gauges.

Please call me at (615) 740-8777 to let me know if I can provide any additional information.

Sincerely,

SOUTHERN CONSULTING, LLC

Trent Smith, P.E.

Project Manager
