RE: REQUEST FOR LICENSE AMMENDMENT:
PIM ENGINEERING LABORATORY, INC.
LICENSE NO. 52-24908-02

03032940

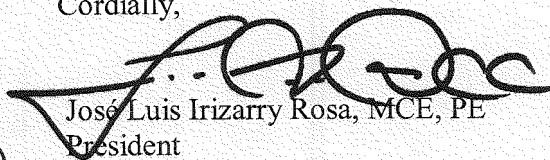

Dear Doctor Lodhi:

On September 24, 2008 our license was amended (Amendment 04) to authorize the storage of nine (9) CPN International and two (2) Humboldt portable gauges (refer to control no. 142831), as part of an NRC operation to manage and dispose of another licensee materials. These activities were concluded in January 2009.

Based on the above we are requesting the NRC to amend once again our license in order for it to reflect our current material quantities and properties. Therefore, license items 6C, 7C, 8C, 6D, 7D and 8D shall be deleted since the referred third party licensee's eleven (11) gauges are no longer in our facilities and/or custody. They were transfer to CPN facilities by FedEx for disposal.

We thank you for the given opportunity to serve you.

Cordially,

José Luis Irizarry Rosa, MCE, PE
President
