ORGANIZATION North Carolina Department of Environment and Natural Resources, Division of Coastal Management				
SUBJECT Location of Proposed GE-Hitachi Global Laser Enrichment (GLE) Facility Outside of Designated Area of Environmental Concern				
SUMMARY (Continue on Page 2)				
<p>Ms. Holly Snider is the North Carolina Department of Environment and Natural Resources (NCDENR), Wilmington Office Division of Coastal Management (DCM) contact for cases in New Hanover County, North Carolina. In this capacity she replaces Mr. Robb Mairs. I called Ms. Snider regarding a February 13, 2008 letter from Mr. Mairs at NCDENR, DCM to Ms. Kimberly Matthews of RTI International indicating that the proposed GE-Hitachi Global Laser Enrichment facility is outside of the nearest Area of Environmental Concern (AEC). AECs are designated by the North Carolina Coastal Resources Commission (NC CRC) as established by the State's Coastal Area Management Act of 1974.</p> <p>I asked Ms. Snider if the location of the facility outside of the nearest AEC is consistent with the designation of some land on the General Electric/Global Nuclear Fuels--Americas site (Wilmington Site) as an Aquifer Resource Protection Area (ARPA) and some land on the Wilmington site a Wetland Resource Protection Area (WRPA), as designated in the Wilmington-New Hanover County Joint Coastal Area Management Plan 2006 Update. Ms. Snider indicated that the designations are not in conflict (i.e., the site can be outside of an AEC but in an ARPA and a WRPA). She indicated that the ARPA and WRPA designations may influence the types of development that can be performed but are not expected to prohibit development.</p>
