

July 9, 2009

Mr. Richard E. Blubaugh
Vice President of Environmental Health
and Safety Resources
Powertech (USA), Inc.
5575 DTC Parkway, Suite 140
Greenwood Village, CO 80111

SUBJECT: SUMMARY OF JUNE 11, 2009 MEETING WITH POWERTECH USA, INC.

Dear Mr. Blubaugh:

Enclosed is the summary of the meeting between U.S. Nuclear Regulatory Commission (NRC) staff and representatives of Powertech (USA), Inc. (Powertech), discussing acceptance review issues associated with the application for the proposed Dewey-Burdock uranium in situ recovery (ISR) facility.

As a result of NRC staff's acceptance review of this application, and these discussions, the staff determined that Powertech's application for a new ISR facility is not sufficiently complete for detailed technical review and will not be docketed. NRC staff gave Powertech the option of either withdrawing the aforementioned application or receiving a letter from NRC staff stating the reasons for not accepting the application. Powertech stated that they would respond to these choices on or about June 19, 2009.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions concerning this letter, please contact me either by telephone at (301) 415-6443, or by e-mail at ronald.burrows@nrc.gov.

Sincerely,

/RA/

Ronald A. Burrows, Project Manager
Uranium Recovery Licensing Branch
Decommissioning and Uranium Recovery
Licensing Directorate
Division of Waste Management
and Environmental Protection
Office of Federal and State Materials
and Environmental Management Programs
