Subject: Data for Levy Nuclear Plant EIS

Laura,

It was nice meeting you in December to discuss the proposed Levy Nuclear Plant. The NRC is currently developing the Draft EIS for this project. As a part of our analysis, we were wondering whether you could provide us with some information in order to help us assess potential impacts on cultural and historic resources. Specifically, could you please provide us with GIS shapefiles for the following categories/GIS layers within 10 miles of the proposed Levy Nuclear Plant site:

- Cemeteries
- Standing structures
- Archaeological sites
- Bridges
- National Register listed sites
- Resource groups (historic districts)
- Cultural resource surveys

We intend to use this information to determine the location and sensitivity of any resources within the Levy Nuclear Plant site and vicinity. In addition, we will use this information to verify the assessment completed by Progress Energy, the applicant proposing to build Levy Nuclear Plant. Please do not hesitate to contact me (301-415-6509 or Michelle.Moser@nrc.gov), or NRC's contractor, Doug McFarland (509-371-7109 or douglas.mcfarland@pnl.gov), if you have any questions.

Sincerely,
Michelle Moser
