**Teleconference with PEF
Levy County COL and Harris COL
January 22, 2009, 1:00 PM EST**

Discussion Topic

Introductions

RAP2 transition to RAP 3

Information needs

- Status
 - o NRC received responses to PEF information needs discussed during the site audit via e-mail and the information needs have been distributed to PNNL/ISL and NRC staff. CD with references has been sent by PEF to the Document Control Desk

- SHPO
 - o PEF copies of all letters to/from SHPO, that include consultation and coordination will be provided to the NRC through response to information needs
 - o PEF will send the PEF guidance document and the SHPO's concurrence on the Inadvertent Finds Procedure to the NRC with the response to information needs
 - o PEF preference is to keep privileged or sensitive information from SHPO as confidential. NRC staff will request this information directly from SHPO (i.e., Information Need CR-14)

- Other
 - o Status of overall schedule for transmission lines studies and surveys to include availability of a plan (e.g., cultural resources, terrestrial ecology) (Related to ESRP 3.7)
 - o LWA vs. COL impacts – Revised text and tables for Section 4.6 and Section 4.8 are expected to be included with PEF's response to information needs
 - o EIS Scoping Summary Report will describe scoping activities conducted by the staff and is expected to be publicly available by May 28, 2009. This report will focus on the public comments received by the NRC and NRC's responses

Managing Site Audit and Information

- Files that are either executables or in a native format (e.g., codes, GIS layers) are not ADAMS compatible. Progress Energy is submitting these files under separate cover letters
- NRC needs sufficient basis for each RAI and must determine whether or not the information has already been provided
- Response to PEF request to keep location of alternative greenfield sites as proprietary is currently going through concurrence

USACE

The following items will be discussed with the Corps:

- Corps will review the Vogtle EIS to see where additional information may be necessary for the Levy EIS. This information will be submitted to the NRC in the form of RAIs. Additional information may be forthcoming as time progresses
- Corps will be meeting with PEF during the week of January 19-23, to finalize the wetlands delineation. Delineation includes the site and heavy haul road
- Corps Public Notice notifying the public about the project will be submitted after the 404 Permit application is finalized
- USACE headquarters is developing an implementation plan to improve guidance on the Corps EIS process

PEF/NRC Interactions with Other Agencies/Public

- PEF continues to work with the FDEP such as the NPDES permitting group
- Summary of public meetings regarding transmission lines
- Projected interactions

Schedule

- Scoping period ended December 23, 2008. Scoping Summary Report to be issued May 28, 2009
- RAIs
 - o PNNL/ISL prepares EIS RAIs November 18 - January 8
 - o NRC review of RAIs January 9 - January 23
 - o Resolution of EIS RAIs with PNNL/ISL January 26 - January 30
 - o OGC review of EIS RAIs January 30 - February 13
 - o Resolve comments on EIS RAIs February 17 - February 23
 - o RAIs issued to PEF February 24
 - o RAI Responses from PEF February 25 - March 27

Harris RAI Responses

- PEC working on responses
- Any needs (PEC or NRC/USACE) to set up a conference call for RAI clarification or for PEC to brief NRC on anticipated responses

Revising Harris Schedule

- Open discussion
- Status of PEC's annual update of ER

Other

- Next conference call

Participants on last Teleconference (January 6, 2009)

Paul Snead (PEF)	Steve Wyngarden (ISL/ICF)
Arun Kapur (PEF)	Mellissa DuMond (ISL/ICF)
Eric Woods (CH2M Hill)	Michael Smith (PNNL)
Loren Young (CH2M Hill)	Michelle Moser (NRC)
Scott Freeman (CH2M Hill)	Douglas Bruner (NRC)
