Subject: RE: Braidwood End of Cycle Meeting

April,

I was very pleased to talk with you at the Braidwood Information Night last evening. During our conversation concerning emergency planning information, I mentioned the recent NRC survey that was conducted near a few of the reactor sites. You may access the results of that study ("Review of NUREG-0654, Supplement 3, "Criteria for Protective Action Recommendations for Severe Accidents"(NUREG/CR-6953)") on the NRC WEB Site at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/contract/cr6953/> . Volume 2 of the document contains a description of the survey that was performed and the results that were obtained, including a substantive amount of the raw data.

I hope that you find it helpful in your review of emergency planning.

Thank you,

Steven Orth
US NRC Region III
