Nuclear Regulatory Commissioners

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Commissioners,

I am writing to encourage the NRC to take steps to increase the security and safety of nuclear waste stored at civilian nuclear reactor sites, which remains unacceptably vulnerable to a terrorist attack or accident.

The likelihood of this spent fuel remaining dangerous for centuries is not at all in question. Unless and until this material can be assured safe storage anyone in the vicinity of this "problem" is at risk for incredible stretches of time. This is a disaster waiting to happen. The increasing noise about using nuclear plants because they are non-carbon releasing is merely has the capacity of making a bad situation truly dreadful. Clean up this act please.

Sincerely,

Mrs. Barbara Charton
