Nuclear Regulatory Commissioners

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Commissioners,

I am writing to encourage the NRC to take steps to increase the security and safety of nuclear waste stored at civilian nuclear reactor sites, which remains unacceptably vulnerable to a terrorist attack or accident. More specifically, I urge you to support a rule change that would strengthen the protection of nuclear waste stored in dry casks against foreseeable threats, such as sophisticated terrorist attacks, which might emerge over the next several decades. Please accept provision (11) of the rulemaking petition submitted by the C-10 Research and Education Foundation, which outlines this change.

This is a vital step for the protection of our civilization as we know it now. You have a great deal of influence and responsibility in safeguarding us all.

Also, I am no expert in this field, but am interested in it and have been since college, and I wonder what is being done to use these rods for our use in heating, or some other energy need?

Thank you.

Nancy G Olson, RN, BSN.

Sincerely,

Mrs. Nancy G Olson
