Nuclear Regulatory Commissioners

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Dear Commissioners,

I am writing to encourage the NRC to take steps to increase the security and safety of nuclear waste stored at civilian nuclear reactor sites, which remains unacceptably vulnerable to a terrorist attack or accident. More specifically, I urge you to support a rule change that would strengthen the protection of nuclear waste stored in dry casks against foreseeable threats, such as sophisticated terrorist attacks, which might emerge over the next several decades. Please accept provision (11) of the rulemaking petition submitted by the C-10 Research and Education Foundation, which outlines this change.

THIS is exactly why I don't want to see more nuclear power plants. More and more undying poison for our planet. I'd like to see nuclear plants go down in history as stopgap until the wind and solar gets going.

Sincerely,

Ms. Canary Burton
