Nuclear Regulatory Commissioners

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Dear Commissioners,

I am writing to encourage the NRC to take steps to increase the security and safety of nuclear waste stored at civilian nuclear reactor sites, which remains unacceptably vulnerable to a terrorist attack or accident. Look, I am a child of the 1950's and 1960's. Those were the days of getting under your desk and covering your head.....those were the days of neighbors having atomic bomb shelters in their back yards.....those were the days children of parents in the military were told what building they would be taken to in the event of an attack.....those were the days the USSR and the USA had hundreds, if not thousands, of nuclear weapons pointed at each other.

The problems we have today are the results of foolish and irresponsible actions of those past days. If you don't find some way to make safe the nuclear waste being stored around the country you will see the nightmares of years past raise their ugly heads.

Please, do what is needed to prevent yesterdays fears being realized in todays world of terrorism and over zealous extremists Sincerly, Dian L Schueller
