Craig,

Per your request, see email below with the list of RAIs for discussion today.

Steve

Stephen Lemont, Ph.D.

Subject: RAIs for Discussion with DTE and BA Conference Call Too
Importance: High

Kirk,

Here is the list of 12 RAIs on which DTE needs clarification or will provide us with additional information:

- 1) AQ2.7-3
- 2) AQ3.6.3-3
- 3) BC10.4.2-1
- 4) GE2-1
- 5) HH5.4.3-1
- 6) HH5.4.2-2
- 7) HY2.3.1-9
- 8) HY4.2.1-8
- 9) LU1.2-1
- 10) TE2.4.1-1
- 11) TE4.3.1-5
- 12) SE4.4.2-10 (LOS study).

Please look these over and decide if we need the corresponding Argonne/ERI SME on the call, and then get with each SME ASAP and provide me with possible dates/times for a conference call with DTE next week (Tuesday-Friday). I assume that you will set up the call. DTE needs only one conference line for the RAI call.

As for the BA call, Craig Tylenda will check with the B&V folks you named to get their availability, but not until Tuesday morning. We'll probably need one or more additional conference lines for that call.

As for NRC staff other than myself being on the call, let's first get the date and time set and then we'll decide who to invite. If there are any you believe we definitely need, please let me know.

Finally, I will need for you to provide a written summary of both calls (or the two parts of the one call), sent to me by email for my review.

Thanks,
Steve
