Nuclear Regulatory Commissioners

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Commissioners,

I am writing to encourage the NRC to take steps to increase the security and safety of nuclear waste stored at civilian nuclear reactor sites, which remains unacceptably vulnerable to a terrorist attack or accident. More specifically, I urge you to support a rule change that would strengthen the protection of nuclear waste stored in dry casks against foreseeable threats, such as sophisticated terrorist attacks, which might emerge over the next several decades. Please accept provision (11) of the rulemaking petition submitted by the C-10 Research and Education Foundation, which outlines this change.

I also urge you to require greatly increased research by nuclear reactor operators into safer methods of disposal of nuclear waste. The costs of such research should be borne by the consumers of energy and/or fuels produced by such reactors.

Sincerely,

Mr. Kenneth Frank
