Darrell since you left it to me, this is the approach I decided to take, rather to write and assigning email.

After Monday's session, which I view as a brainstorming meeting (not a brief or decision making meeting), I should be in a better situation to formulate an action item.

Doug has agreed to help.

Had to move next week's staff meeting focus on 71003 to Monday since we are traveling for Susq. LRI exit

Joe and Heather exempt since they are on PIR team - thoughts or issues send them in by email.

Glenn, we WILL be done with Susq. refresher brief with Darrell by 130pm

Michael, call in from home to DRS conference room.

John you exempt from reprot writing, will still pay you overtime for compressed day work

All others are scheduled to be here - if not, we can conference up to six lines, let me know.

Review summary items of below linked file for:

- 1) What is high, low or of no importance
- 2) If high what should be ready to discuss at Cparts call on Jan 27.
- 3) Establish reasonable schedule/actions/individuals to meet deadline for high and low importance.
- 4) Build consensus on that which is of no importance - confirm no importance is an option with afterthought
