Subject: 2009-06-16 HP Audit agenda and Meteorology

Steve,

I just received confirmation this morning that our HP personnel from Units 1 and 2 are expected to be available on Tuesday from 1:30 pm to about 4 pm. I had mentioned this to you on the phone earlier but I wanted to confirm the information. We have several activities going on next week that also involve these individuals but fortunately we were able to steal a couple of hours of their time.

I also wanted to let you know that I will not be there for the HP Safety Site Audit. John Conly will lead the audit on our end with assistance from Joe Tapia, Todd Evans, Matt Weeks and a flock of subject matter experts. We believe we will be prepared to address all the items in the needs request. If there are any problems, feel free to contact any member of our team.

We are checking on the availability of personnel to support the hydrology visit on July 7-9 (do I have those dates correct?). It is difficult to confirm until we have the needs list. I have asked our team to identify the earliest date we can support the visit if the proper personnel are not available the week of 7/6/09 (I think that some individuals may have already made plans as this is the week after the 4th).

I heard this morning that there is a desire to combine the meteorology visit with the geology visit the last week of July (the 27th through the 30th I think). Is this true? If so, we can start checking to confirm that we can support those dates for meteorology. I see no problem with doing meteorology and geology the same week if we have the proper personnel available.

D. R. Woodlan
