Name of Licensee: I2S, LLC

Name of Participant(s): Randy Stevens, Radiation Safety Officer  
Steven R. Courtemanche, Health Physicist NRC RI

Telephone No. 203-265-5684, 610-337-5075

Subject: Error in license.

(NOTE: This will be used as the  
Documents Title in ADAMS)

Mr. Stevens called to inform me that after reviewing the amended licenses that he spotted two errors in LN 06-21253-01. Items 9.F. and H. did not have the proper name down. The listed name is "Industrial Integrated Systems, Inc." which should be "Intergrated Industrial Systems, Inc." Mr. Stevens was concerned that the error in the name would cause problems with the company's ability to distribute gauges. He understood that the license was going to be amended to I2S, LLC after the registration sheets were amended but wanted to be sure. I informed him that I would speak with my supervisor and get back to him with an answer. 15:15 I conferred with James Dwyer and it was decided that a note should be put into the file describing the error and why a corrected copy was not issued. To wit, the licensee will be amending the license to change all references to I2S, LLC within the next month and the error has no bearing on the licensee's ability to distribute gauges since the error was on the part of the NRC license reviewer. Mr. Stevens indicated that he would send in a license amendment request as soon as he is notified that the Sealed Source and Device Registration Sheets have been amended.
