County Data Dictionary
by 3-, 4-, 5-, and 6-Digit NAICS Codes

Note: In the filenames, [YR] is the 2-digit data year. Each data field is separated by comma (,) delimiters.

NOTE: "EMPFLAG" (Data Suppression Flag) field denotes employment size class for data withheld to avoid disclosure (confidentiality). Employment and payroll data are replaced by zeroes.

Data

Name Type Description

FIPSTATE TXT FIPS State Code

12 Florida

FIPSCTY TXT FIPS County Code

NAICS TXT Industry Code - 6-digit NAICS code.

EMPFLAG TXT Data Suppression Flag

This denotes employment size class for data withheld to avoid disclosure. Employment and payroll data are replaced by zeroes.

You are here: [Census.gov](#) › [Business & Industry](#) › [County Business Patterns](#)

County Business Patterns (CBP) Metro Business Patterns (MBP) ZIP Code Business Patterns (ZBP)

These three programs cover most of the country's economic activity, as described in an introduction. The series excludes data on self-employed individuals, employees of private households, railroad employees, agricultural production employees, and most government employees. For information on businesses with no paid employees, see Nonemployer Statistics.

These data include counts of establishments by the employment size of the establishment. Statistics on businesses by employment size of the firm are published in Statistics of U.S. Businesses.

Data for 2006 were released in June 2008. The press release highlights key findings.

View data in tables

U.S., States, and Counties in the U.S. ¹ (1998-2006)

Puerto Rico and its Municipios (2003 to 2006)

Zip Codes ² (1998 to 2006) (Enter 5-digit ZIP Code)

Metropolitan and Micropolitan Statistical Areas ³ (1998-2006)

Data in other formats for manipulation and analysis

Extract and manipulate the data in American FactFinder (2004 to 2006 only)

Download the data in comma-delimited format (1986 to 2006)

See the discussion of Historical CBP Data for earlier years, including data for selected years on CD-ROM.

¹ Employers without a fixed location within a state (or of unknown county location) are included under a "statewide" classification at the end of the county tables. This incomplete detail causes only slight understatement of county employment. The independent cities in Virginia, and the cities of Baltimore, MD; Carson City, NV; and St. Louis, MO, are treated as separate counties.

² Most ZIP Codes are derived from the physical location address reported in Census Bureau programs. The Internal Revenue Service provides supplemental address information. Those employers without a fixed location or with an unknown ZIP Code are included under an "Unclassified" category indicated by ZIP Code 99999.

³ Metropolitan statistical areas have an urban core with 50,000 or more inhabitants. Micropolitan statistical areas have an urban core with 10,000 to 49,999 inhabitants. See definitions or maps for metropolitan and micropolitan areas as of June, 2003.
