Subject: Church Rock Financial Surety Requirement, Source Materials License no. SUA-1475

Dear Mr. McConnell:

Please find attached the revised Rider for Performance Bond no. 81621413 as required by 10 CFR 40, Appendix A, Criteria 9 and 10, in compliance with Condition 25 of the subject Source Materials License. The revised surety applies the corrected increase in the CPI-U (0.2%) that was contained in the NRC's May 29, 2009 correspondence. UNC understands from this correspondence that the NRC may want to re-baseline the surety estimate and consider other clarifications following the completion of a Site-wide Supplemental Feasibility Study that is currently being prepared for USEPA.

As of September 1997 United Nuclear Corporation became a wholly-owned, indirect subsidiary of the General Electric Company. GE Corporate Environmental Programs has been retained through a separate administrative services agreement to assist United Nuclear both technically and administratively with environmental issues at the Church Rock site. Please contact me if you have any questions.

Sincerely,

Roy S. Blickwedel
