Betsy:

The Maryland Department of the Environment's Air and Radiation Management Administration and Hazardous Waste Administration have reviewed the draft EA for the Department of the Army, Army Research Laboratory at Aberdeen Proving Ground, License No. SMB-141, docket No. 040-06394, Control No. 143726. We do not have any concerns or comments regarding this assessment. Thank you for informing MDE and allowing input regarding this assessment.

Thanks
Ray

Ray,

Attached is a draft EA for the Department of the Army, Army Research Laboratory at Aberdeen Proving Ground, License No. SMB-141, docket No. 040-06394, Control No. 143726. This is for release of the R-14 Range on the Spesutie Island area of APG. This is very similar to the recent release of their Transonic Range that occurred a few years ago, and they were authorized for the same release criteria.

All of the documents in ADAMS listed in the draft EA are public, with the exception of the air monitoring results. Unfortunately, they included the BZ results there, with the names of the persons, so this is considered Privacy Act information. We are supposed to receive a redacted version of those files, so if you need to see them, let me know.

I would appreciate a response in 30 days. Please contact me if you have any additional questions.

thanks,

Betsy
