Mr. Don Woodlan
Manager, Nuclear Regulatory Affairs
Luminant Generation Company LLC
P.O. Box 1002
Glen Rose, Texas 76043

SUBJECT: COMANCHE PEAK NUCLEAR POWER PLANT, UNITS 3 AND 4 COMBINED
LICENSE APPLICATION ONLINE REFERENCE PORTAL (TAC RF2695)

Dear Mr. Woodlan:

By letter dated September 19, 2008, Luminant Generation Company LLC (Luminant) submitted an application pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52 for two combined licenses (COLs) for Comanche Peak Nuclear Power Plant (CPNPP), Units 3 and 4. On December 2, 2008, the U.S. Nuclear Regulatory Commission (NRC) published a *Federal Register* notice of acceptance for docketing of the application.

To improve the efficiency of the environmental and safety reviews, Luminant and NRC staff discussed the use of an online reference portal that would allow the NRC, Oak Ridge National Laboratory (ORNL), and Information Systems Laboratories (ISL) staff limited read-only access to the basis documents and other reference materials cited in Luminant's CPNPP, Units 3 and 4 COL application. The online reference portal will allow the NRC staff to audit basis documents to determine whether the information contained in the documents supports the COL application. The NRC staff will formally request documents to be submitted on the docket, which the staff identify as necessary for its analysis of the COL application or development of the EIS. Use of the online reference portal is acceptable as long as the following conditions are met by Luminant:

- The online reference portal will be password-protected, and passwords will be distributed to staff directly involved in the COL review on a need-to-know basis;
- The online reference portal will disable any printing, saving, or downloading functions;
- The online reference portal will be sufficiently secure to prevent staff from printing, saving, or downloading any documents; and
- Staff given password access to the online reference portal will be informed of the conditions of use of the online reference portal by NRC project managers.

The conditions associated with the online reference portal must be maintained throughout the duration of the CPNPP COL application review process. Please provide written confirmation that Luminant agrees to the terms and conditions contained in this letter.

D. Woodlan

SUBJECT: COMANCHE PEAK NUCLEAR POWER PLANT, UNITS 3 AND 4
DOCKET NUMBERS 52-034 AND 52-035
ONLINE REFERENCE PORTAL (TAC RF2695)

REFERENCE: NRC letter dated April 15, 2009, from Gregory P. Hatchett to Mr. Don Woodlan concerning an Online Reference Portal (TAC RF2695)

Dear Sir:

Luminant Generation Company LLC (Luminant) submits this response to the referenced letter concerning conditions for using an online reference portal during the review of the Combined License (COL) application for Comanche Peak Nuclear Power Plant (CPNPP), Units 3 and 4. Luminant had previously proposed the use of an online reference portal (electronic reading room). The referenced letter accepts the use of an online portal and provides a list of conditions to be maintained throughout the duration of the CPNPP COL application review process.

Luminant hereby confirms that the conditions listed in the referenced letter will be maintained throughout the duration of the CPNPP COL application review process for as long as the electronic room is available to NRC reviewers. A description of the key elements of the Luminant electronic reading room follows:

The electronic reading room is password-protected and passwords will be distributed to staff directly involved in the COL application review on a need-to-know basis.

The electronic reading room disables any printing, saving or downloading functions to any location other than a printer or server controlled by Luminant.

The electronic room is sufficiently secure to prevent staff from printing, saving or downloading any documents. (Luminant cannot prevent a user from printing a single page via screen print or from taking a picture of the computer screen with a camera.)

Luminant understands that staff members who are given password access to the electronic reading room will be informed of the conditions of use by the NRC project managers. Each time any user logs into the electronic reading room, a message informs the user of the conditions for use.

Should you have any questions about this letter or matters relating more generally to Luminant Power's nuclear generation development program, please contact Don Woodlan (254-897-6887, Donald.Woodlan@luminant.com) or me.

Sincerely,

Luminant Generation Company LLC
