Importance: Low

Gentlemen,

I believe this concludes the review of the US Nuclear Regulatory Commission's Environmental Assessment, docket number 03003754, from the Connecticut Department of Environmental Protection.

Please let me know if you have any questions.

Michael E. Firsick
Supervising Radiation Control Physicist

Subject: CE Windsor Site
Importance: Low

As a result of further consultation with Heath Downey of Mactec, the Wildlife Division is satisfied that the issues raised in my memo of June 19, 2009 concerning mitigation measures to protect two State species of special concern will be addressed as remediation of the site proceeds. Thank you for the opportunity to review this project.
