Dear Mr. Paulson,

On October 8, 2008, you wrote the U.S. Nuclear Regulatory Commission (NRC) requesting approval of a container that would be used to store Safeguards Information (SGI). The container you wished to purchase was not listed as a security storage container pursuant to 10 CFR 73.2 and required review and approval by the NRC prior to being placed in use.

The Division of Facilities and Security, within the Office of Administration, has responded to my office and indicated the container you identified in your request is adequate for SGI storage requirements. Accordingly, your request to use the King Kogyo Co., Ltd. type KCX53-2DA steel container with lock manufactured by Opunasu is approved.

If you have any questions, please contact Mr. Robert Norman of my staff at (301) 415-2432.

Sincerely,
