**Subject:** Request for Information on Radioactive Waste for Selected NPPs

Mr. Amararu Isukul  
Center for Environmental Policy  
Imperial College London  
Level 3 Mechanical Engineering Building  
South Kensington London SW7 2AZ

June 23, 2009

Dear Mr. Isukul:

In response to your letter, dated May 13<sup>th</sup> 2009, requesting data on solid radioactive wastes (types and quantities), and liquid and gaseous wastes, please note that you can obtain this information using our publicly-available *Agencywide Documents Access and Management System* (ADAMS). Documents in the ADAMS can be searched using the link <http://www.nrc.gov/reading-rm/adams/web-based.html>.

The information you have requested is contained in "Radioactive Effluent Release Report," and "Environmental Report," submitted annually to NRC by an organization operating the plant. An example search criterion can be "2008 Seabrook effluent release report," or "2008 Seabrook environmental report."

We hope the information above provides you the data you need for your research on the Master's project. If you need further information, please do not hesitate to contact me.

Yours Sincerely,

Mahendra

Dr. Mahendra J. Shah, P.E., F. ASCE  
Sr. Level Advisor - Engineering  
Division of High-Level Waste Repository Safety  
Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission
