**Subject:** Your June 25, 2009 letter with additional information for amending your NRC license

I received your letter providing additional information for David Wismer, however, you have not specifically addressed experience and training in the use of byproduct materials of the kinds and quantities authorized by your license. Please provide information to support that Mr. Wismer should be authorized to independently use and supervise the use of byproduct materials of the types you are licensed to possess.

Again you may reply by fax to 610 337-5269 and please refer to Mail Control No. 143803.

Thank you.
