SUBJECT: DRAFT ENVIRONMENTAL ASSESSMENT FOR THE WESTERN NUCLEAR  
INCORPORATED, SPLIT ROCK SITE

Dear Mr. Surovchak:

I am currently developing a draft Environmental Assessment (EA) for the application of an alternate concentration limit for groundwater and revised groundwater protection standards at the Western Nuclear Inc., uranium mill site in Jeffrey City, Wyoming. Western Nuclear Inc. has requested the U.S. Nuclear Regulatory Commission (NRC) approve its request by amending Source Materials License SUA-56.

I have enclosed a copy of the draft EA, and would appreciate your comments within 30 days from the date of this letter. If you have any questions, please contact me at 301-415-7188 or at [richard.chang@nrc.gov](mailto:richard.chang@nrc.gov). Please note that the draft EA contains pre-decisional information that should not be disclosed without prior NRC consent.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of the NRC's Agencywide Document Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
