Attention: Mr. Hector Bermudez
Fax: 610-337-5269

Dear Mr. Bermudez,

03010491

Robert Wood Johnson University Hospital at Hamilton, license number 29-16145-01 wishes to provide the additional information you had requested via email which was sent to our Radiation Safety Officer, Ms. Janet Bryant, dated 6/17/2009 in reference to the decommissioning of #3 Hamilton Health Place.

- a. Please note the building is a single story building, located in a mixed commercial/residential area; the licensee occupied approximately 12,000 square feet of space in part of the building on the ground floor. This area consisted of office space and laboratories; use of licensed material was confined to Rooms 102, 103, 104, 126, 154, 180, 195C, 216, 217, 220, 221, 242.
- b. We can confirm that carbon-14 was the only isotope in unsealed form being used with a half life greater than 120 days at his location.
- c. The proposed action will not have an effect on historic properties.
- d. We can confirm that a final status survey was completed in April 2009. This survey covered all areas of use at the facility.

In addition, please note that as of today's date, all correspondence should be sent to Anthony (Skip) Cimino, President and Chief Executive Officer. Should you have any questions, please contact our Radiation Safety Officer, Ms. Janet Bryant through her office at 908-788-9440, extension 40, or you may contact Mr. Ryszard Czarnuszewicz, Administrative Director of Radiology at 609-584-6606.

Sincerely,

Anthony J. Cimino
President and Chief Executive Officer
