**LEVY NUCLEAR POWER PLANT, UNITS 1 AND 2  
DOCKET NOS. 52-029 AND 52-030  
SUPPLEMENTAL INFORMATION RELATED TO HYDROLOGIC ENGINEERING –  
CALCULATION NATIVE FILES**

Reference: Letter from Garry D. Miller (PEF) to NRC Document Control Desk, Serial No. NPD-NRC-2009-110, dated June 15, 2009, "Response to Request for Additional Information Letter No. 036 Related to Hydrologic Engineering"

Ladies and Gentlemen:

Progress Energy Florida, Inc. (PEF) hereby submits requested additional information that was noted in the response to RAI 02.04.01-2 in the referenced letter. The information requested was the HEC-HMS and HEC-RAS model simulation native files.

The supplemental information contained in the files on the attached CD is provided to support the NRC's review of the LNP Combined License Application, but does not comply with the requirements for electronic submission. The NRC staff requested the files be submitted in their native formats, required for utilization in the software employed to support the ER development. PEF understands that converting the information to PDF output files would not serve the underlying purpose of the submittal; i.e., to provide the raw, unprocessed data to enable reviewers to evaluate software used in the LNP application.

The attached CD contains files described in the RAI response in the following folders:

- Withlacoochee-HECHMS
- Withlacoochee-HECRAS

If you have any further questions, or need additional information, please contact Bob Kitchen at (919) 546-6992, or me at (919) 546-6107.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 23, 2009.

Sincerely,

A handwritten signature in black ink, appearing to read "Garry D. Miller". The signature is fluid and cursive, with the first name "Garry" being more prominent and stylized than the last name "Miller".

Garry D. Miller  
General Manager  
Nuclear Plant Development
