

**REQUEST FOR ADDITIONAL INFORMATION 417-2540 REVISION 1**

6/30/2009

US-APWR Design Certification

Mitsubishi Heavy Industries

Docket No. 52-021

SRP Section: 18 - Human Factors Engineering

Application Section: 18.4 Task Analysis

QUESTIONS for Operating Licensing and Human Performance Branch (AP1000/EPR Projects) (COLP)

18-64

Section 18.4.3 of the US APWR DCD (MUAP-DC018) revision 1, states that the task analysis results are documented in the Technical Report (Reference 18.4-4). The task analysis results provide input to the design of HSIs, procedures, and personnel training programs.

Reference 18.4-4 looks like this:

HSI Design Technical Report, MUAP-08XXX-P (Proprietary) and MUAP-08XXX-NP (Non-Proprietary), later.

The use of the word "later," instead of specifying a date indicates that this report is not complete, even though it is referenced in the DCD.

Please submit the completed HSI Design Technical Report, or, if not complete, submit a date when MHI expects to complete and submit the report to the NRC staff.
