

<b>BSC</b>	<b>Calculation/Analysis Change Notice</b>  <i>Complete only applicable items.</i>	1. QA: QA 2. Page 1 of 2
3. Document Identifier: 000-00C-SSE0-00500-000-00A		
4. Rev.: 00A		5. CACN: 001
6. Title: Structural Stability of a Drip Shield Under Quasi-Static Pressure		
7. Reason for Change:  To Change the Status of the <i>Structural Stability of a Drip Shield Under Quasi-Static Pressure Calculation</i> from <b>Preliminary</b> to <b>Committed</b> .  Per EG-PRO-3DP-G04B-00037, Section 2.3 - Calculation or Analysis Status:  "To change from preliminary to committed requires a determination by the Discipline Engineering Manager (DEM) that the results are unlikely to change or the degree of impact of any changes will be minimal."  The status of the <i>Structural Stability of a Drip Shield Under Quasi-Static Pressure Calculation</i> can be changed from <b>Preliminary</b> to <b>Committed</b> as the results are not expected to change in such a manner that will affect the support of Regulatory submittals as determined by the DEM.  Ownership of this calculation was transferred from the Lead Laboratory back to BSC for the sole purpose of changing the status from preliminary to committed. When this is completed, the ownership of the calculation (including the assumptions) will be transferred back to the Lead Laboratory. Therefore, tracking of assumptions 3.7 and 3.8, which require verification, in CalcTrac will be temporarily done until transfer back to the Lead Lab is completed. At that time, the assumptions will be closed. All other assumptions do not require verification.		
8. Supersedes Change Notice:	<input type="checkbox"/> Yes    If, Yes, CACN No.:	<input checked="" type="checkbox"/> No
9. Change Impact:		
Inputs Changed:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Results Impacted:
Assumptions Changed:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Design Impacted:
10. Description of Change:  <b>On the Cover Sheet, Block 7:</b>  Add Committed Box and Change Status of Calculation to Committed.  <b>On the Cover Sheet, Block 8:</b>  <b>Replace:</b>  "The calculations contained in this document were developed by Waste Package and Components and are intended solely for the use of Design and Engineering in its work regarding the Drip Shield. Yucca Mountain Project personnel from Waste Package and Components should be consulted before use of the calculations for purposes other than those stated herein or use by individuals other than authorized personnel in Design and Engineering."  <b>With:</b>  "The calculations contained in this document were developed by Bechtel SAIC Company, LLC (BSC) and are intended solely for the use of BSC in its work for the Yucca Mountain Project. This disclaimer will expire when ownership of this document is transferred to another organization."  <b>On page 9, Section 3 – Assumptions, Assumption 3.8, First Sentence:</b>  Change "T-24" to "Ti-24".
