Subject: Notification of New Submittal Date for Response to NRC RAIs

Dear Mr. Saverot:

Holtec notifies the NRC staff that a new submittal date of July 13th, 2009 is necessary for responding to the RAIs enclosed in Ref. 2.

The long computer run times for ongoing numerical analysis (necessary to respond to the RAIs) and the QA verification of safety significant documentation under Holtec's QA Program are the major reasons for the one week delay to the RAI response submittal.

Sincerely,

Luis E. Hinojosa
