**Sent:** Tuesday, June 23, 2009 3:51 PM  
**To:** rhbense@stpegs.com  
**Subject:** Chapter 8 Draft RAI  
**Attachments:** Draft RAI 3038.doc

Richard:

I have attached to this electronic communication a draft request for additional information (RAI) for Section 8.2 of the STP COLA. If you need a conference call to clarify the requested information, please contact me. If a conference call is not needed, please send me an email and I will continue the formal process of issuing the RAI to STPNOC.

Thanks,

Adrian Muñiz, USNRC

QUESTIONS for Electrical Engineering Branch (EEB)

08.02-\*\*\*

DCD COL License Information Section 8.2.4.2 requires plant operating procedures when a RAT or UAT is out of service. STP 3&4 FSAR Section 8.2.4.2 indicates that the Technical Specifications (TS) limit plant operation whenever one of the UAT or both of the RATs are inoperable. The staff has noted that STP uses two RATs rather than one RAT included in ABWR DCD. Explain if the plant operating procedure will include any restriction of plant operation when one RAT is out of service.
